

IRISS Announces New Strategic Alliance with HIKMICRO

June 23, 2021 Lakewood Ranch, Florida – *IRISS, the world leader in electrical maintenance safety devices and reliability technologies*, announces a strategic alliance with HIKMICRO, a global provider of high-quality thermal imaging equipment and solutions. IRISS will add the HIKMICRO line of thermographic cameras to their existing Sonus brand of Partial Discharge and Ultrasound test equipment, EMSD product solutions, and online training/certification programs through its SMART Academy.

With advanced technology playing a significant role in both safety and accuracy for asset inspection and management, industries know the move to a broader and more efficient system must be adopted. This alliance expands the opportunity for practitioners worldwide to access the inspection window solutions from IRISS that allow for a safer, closed-panel inspection process, as well as the superior quality thermographic cameras from HIKMICRO to perform the inspections.

“IRISS is a leader in Electrical Maintenance Safety Devices to enhance reliability for Data Centers, Manufacturing, and Utility Customers. HIKMICRO’s new partnership with IRISS will enhance our thermography solutions for all our existing and future clients,” Brent Lammert, VP Sales & Marketing North America at HIKMICRO, stated. “As industrial companies continue to focus on reliability, safety, and cost reduction, the addition of IRISS Inspection Windows with HIKMICRO Thermal Cameras will greatly assist them in achieving their goals.”

“We are excited about partnering with HIKMICRO. Their affordable, high-quality products are a welcome addition to IRISS’s global distribution model of electrical maintenance safety devices and reliability technologies. Our staff and network of distributors look forward to working with their highly-experienced team”, said Martin Robinson, Founder & CEO of IRISS.

For companies that want to protect their workers and assets, this announcement brings to access to cost-effective strategies and operational solutions. Contact the experts at IRISS for more product information or a free consultation on your electrical maintenance program.

About IRISS

IRISS is the global leader in electrical asset management solutions for safety and reliability. Through the “IRISS Ecosystem” of monitoring, inspection, and management technologies, companies see a higher level of cost-effective operations, productivity, and a safer work environment.
